WARNINGS-

- Handle with care
- Eye irritant.
- Observe any warnings that apply to the product(s) with which AQUA-RIGHT® 3 VITIS is to be used.
- Do not use AQUA-RIGHT® 3 VITIS with remedies that require an alkaline environment (pH >7).
- Store in a cool place away from food and feed.
- Keep out of reach of children, uninformed persons and animals.
- In the case of poisoning, call a doctor and make this label available to him or her.

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animals or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions, which could not have been foreseen in terms of registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS:

- Wear suitable protective clothing and rubber gloves when handling the concentrate.
- Avoid prolonged contact with the concentrated product.
- In case of contact with the skin, wash the affected area immediately with soap and water.
- In case of contact with the eyes, flush them immediately with clean water for at least 15 minutes
- Rinse the empty container three times with a volume of water equal to at least 10% of that of the container, and add the rinse water to the contents of the spray tank before destroying the container.
- Destroy the empty container by means of perforation and flattening, and never use it for any other purpose.
- Prevent contamination of food, feeds, drinking water and eating utensils.

SYMPTOMS OF HUMAN POISONING:

Causes redness, pain and irritation to the eyes and skin. Inhalation and ingestion may result in the development of nausea, vomiting, diarrhoea and gastric distress.

FIRST AID TREATMENT

Inhalation.

Remove to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, administer oxygen. Keep person at rest and warm. Treat symptomatically and supportively as and when required. Obtain medical advice if necessary.

Ingestion:

Have person rinse out their mouth thoroughly with clean water. Give half to one glass of water to dilute the material if person is alert and not convulsing. Do not induce vomiting, if spontaneous vomiting occurs, have person lean forward with head down so as to avoid the breathing in of vomit. Rinse the mouth each time and give more water. Never give anything by mouth to an unconscious person. Qualified medical personnel should perform administration of oxygen. Seek medical advice immediately.

Skin Contact-

Remove any contaminated clothing. Wash the affected skin area with water for at least 15 minutes. Get medical attention if irritation develops or persists. Wash clothing before re-use. Do not rub the skin hard.

Eve Contact:

Immediately flush eyes with clean water or saline solution for at least 15 minutes, lifting lower and upper evelids occasionally. Get medical attention immediately.

NOTE TO PHYSICIAN:

Treat symptomatically.

DIRECTIONS FOR USE: Use only as indicated

MIXING INSTRUCTIONS:

Mix AQUA-RIGHT® 3 VITIS with the spray tank water before adding any other agricultural remedies.

GENERAL NOTES:

AQUA-RIGHT® 3 VITIS contains an organic buffering system that when applied correctly will buffer the majority of spray solutions to a pH of between 3.0-3.5 depending on the quality of the water.

AQUA-RIGHT® 3 VITIS contains a wetting agent and humectants.

RECOMMENDATIONS:

AQUA-RIGHT® 3 VITIS is for use with those agricultural remedies that require an acidic environment to achieve optimum results.

pH of water	Dosage Rate (mℓ/100 ℓ water)
< 7 (acidic)	50 - 75
> 7 (alkaline)	150 - 250

Application rate may be affected by water quality. It is advisable to routinely check the pH of the spray tank water before and after the incorporation of AQUA-RIGHT® 3 VITIS.
