# AQUA Right<sup>®</sup> 7

Aqua-Right<sup>®</sup> is a registered Trademark of Ag-Chem Africa (Pty) Ltd Reg. No. L6895 Act No. 36 of 1947

ADJUVANT

**A water soluble buffering and non-ionic wetting agent for specific use with those agricultural chemicals whose optimal performance in spray water require a neutral pH.**

## Active Ingredients

Buffering system	381 g/l
Alkyl polyglucoside	86 g/l

**agchem**  Member of **Rolfes**  
GROUP

CAUTION

LIFT HERE

**Aqua-Right®7** contains a buffering system that when applied correctly will buffer the majority of spray solutions between a pH of 6,5 and 7,2 depending on water quality.

**Aqua-Right®7** contains a wetting agent which improves the wetting, spreading and contact of the remedy on the sprayed plant surface.

**Aqua-Right®7** helps prevent the rapid degradation of alkaline sensitive remedies.

**Aqua-Right®7** assists in neutralization of dissolved salts (Ca ; Mg) that influence product performance.

**Aqua-Right®7** retards rate of evaporation and improves the re-wetting of spray deposits.

#### WARNINGS:

- May be harmful if swallowed.
- Causes irritation to the skin, eyes and respiratory tract.
- Observe any warnings that apply to the product or products with which **Aqua-Right®7** is to be used.
- Do NOT use **Aqua-Right®7** with remedies that require an alkaline or acidic environment (pH > 7 or pH < 6).
- Keep out of reach of children, uninformed persons and animals.
- Store in a cool place away from food and feed.

Although this remedy has been extensively tested under a large variety of conditions, the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal soil, climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label, as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animals or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of registration. Consult the supplier in the event of any uncertainty.

#### PRECAUTIONS:

- Avoid prolonged contact with concentrated product.
- In case of contact with eyes flush immediately with water for at least 10 minutes.
- In the case of skin contact, wash affected area with soap and water.
- Rinse the empty container three times with a volume of water equal to at least 10% that of the container and add the rinsings to the contents of the spray tank before disposing of the container. Destroy empty container by perforation and flattening and never use for any other purpose.
- Prevent contamination of food, feeds, drinking water and eating utensils.

#### DIRECTIONS FOR USE: Use only as indicated.

**Aqua-Right®7** is for use with those agricultural remedies that require a neutral environment for optimal performance.

WATER QUALITY	APPLICATION RATE
pH 4-5	150 mℓ/100 ℓ water
pH 5-6	100 mℓ/100 ℓ water
pH 6-7	50 mℓ/100 ℓ water
pH 7-8	50 mℓ/100 ℓ water
pH >8	100 mℓ/100 ℓ water
When the pH of the spray water is not known, it is recommended that <b>Aqua-Right®7</b> be applied at the rate of 100 mℓ per 100 ℓ water.	

Mix **Aqua-Right®7** with the spray tank water before adding any other agricultural remedies.

Application rate may be affected by water quality. It is advisable to routinely check the pH of the spray tank water before and after the incorporation of **Aqua-Right®7**.
