WARNINGS:

- Handle with care.
- Keep out of reach of children, uninformed persons and animals.
- In case of poisoning, call a doctor and make this label available.
- Do not eat, drink or smoke whilst mixing, applying or before washing hands and face.
- Wash contaminated clothing daily.
- Prevent contamination of food, feed, drinking water and eating utensils.
- This product may not be effective when used with organosilicone wetters.

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animals or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS

- Shake well before use.
- Store in a cool, dry place. It is recommended that the container be stored at temperatures between 10° C and 25° C, out of direct sunlight.
- Wash immediately with soap and water after use or accidental contact with skin or eyes. In case of eye contact, immediately rinse the eye(s) with clean running water for at least 15 minutes.
- Rinse the empty container three times with a volume of water equal to at least 10 % that of the container and add the rinsing to the contents of the spray tank before disposing of the container.
- Destroy the empty container by perforation and flattening and never use for any other purpose.

DIRECTIONS FOR USE: USE ONLY AS INDICATED.

For the 500 mL bottle (squirt bottle):

Apply 2 squirts (20 mL) of **BUBBLE BUSTER** per 100 L water (or spray mixture) prior to or after the formation of problematic foam in the spray tank.

For the other pack sizes:

Apply 20 mL **BUBBLE BUSTER** per 100 L water (or spray mixture) prior to or after the formation of problematic foam in the spray tank.
